We advise to use a conditioner after the shampoo in order to restore the lipid process

**NB: THE AROMATHERAPY LINE IS NOT ADVISABLE FOR CATS – ONLY FOR DOGS AND PUPPIES**

### ***Shampooing Fraîcheur Désodorisant à la Fleur de Pâquerette***

#### **Deodorizing Fresh Daisy Flower Shampoo**

Deodorizing Fresh Daisy Flower Shampoo with Encapsulation, a process which allows on a long term the diffusion of scents. The Baking Soda balances the Skin and the Coat Ph.

Deodorizing shampoo especially created to bring freshness and wellness to all the pets with long or short hair. It gently eliminates the odors thanks to the natural cleansing property of the Daisy Flower Extract and Baking Soda.

When regularly used it revitalize the coat which becomes soft, smooth, shiny and leaves a delicious scent of a freshly cut Daisy.

Some qualities of main components: Daisy Flower Extract, a natural botanical deodorizer – Baking Soda, removes impurities, balances the pH of skin and coat – Odor Encapsulation, a special process which allows the diffusion of scents on a long term – Aloe Vera, soothing and conditioning – Vitamins A & E, fortifies the coat and the skin.

Direction for Use: brush the coat and wet thoroughly. Shake well before use. Advised dilution, 15 to 20 volumes of water depending of the quality of the coat (finest is the hair and more important is the dilution). Apply on all the body, starting by the head (avoid contact with the eyes), follow with the back to the tail, sides, legs and intimate parts (a flower puff may help to facilitate the application and speed up the process). Lather well on all the body. Rinse thoroughly and repeat if necessary. Avoid water in the ears and always dry them up completely inside with a towel.

### ***Shampooing à la Mangue Démêlant & Hydratant***

#### **Detangling & Moisturizing Mango Butter Shampoo**
